Milan Design Week 5 – 11 September 2021

Marsotto edizioni presents:

COLLECTIBLE MARBLE

“Design creates culture, culture shapes values, values determine the future” Robert L.Peters

Collectible marble is a selection of iconic projects, elegant and timeless, created by top contemporary international designers. They were conceived as collectible pieces, to work together as a group or alone as a main single piece.

These unique and numbered objects are enriched by refined details, exquisitely hand-finished by our skilled artisans with great passion and commitment.

Collectible marble reveals the beauty through a natural noble material with valuable pieces that can be passed down from generation to generation.
